

CLARENCE EDDY IS COMING HERE

A CONCERT JULY 8 BY PEER OF ORGANISTS

TO DEDICATE NEW ORGAN

Famous Organist to Give Concert on New Baptist Church Instrument Given by Charles Hyslop

Clarence Eddy, recognized as one of the greatest organists of the present age, has been secured to open the new Baptist pipe organ at the dedication services to be held Sunday evening July 8. The Baptist Church is fortunate in securing Mr. Eddy for a concert here and it was partially through the efforts of Charles R. Gardner, head of the Conservatory of Music, who knows Eddy personally, that arrangements were made for the concert here.

Mr. Eddy has toured every important country in the world playing concerts. Following a recital given by him at the famous St Cecilia Academy in Rome, he was made an honorary member, and among the encomiums he received was the following from the great composer Sigmabati: "He is one of the greatest organists of the present epoch."

After his concert in London the Times said, "His technical powers are beyond criticism," and the London Telegraph declared, "He is a performer of very conspicuous ability. In Berlin the Freisinnige-Zeitung said, "His manual and pedal technique is enormous, and in the art of registration it would be difficult to find his equal."

In Paris Le Monde Musical said "All his different works were executed with an authority which places Mr. Eddy at the head of American organists."

Mr. Eddy was born in Greenfield, Mass., and began studying the piano-forte at the age of eleven. His first lessons on the organ were from J. Gilbert Wilson two years later, after which he studied a year under Dudley Buck in Hartford, Conn.

He spent two years as organist of Bethany Church at Montpelier, Vermont, and then went to Berlin, where he studied the organ and composition under August Haupt, and the piano under Albert Loeschorn.

After a highly successful concert-tour in Germany, Austria, Switzerland, and Holland, Mr. Eddy returned to this country and located in Chicago. In Chicago, he gave upwards of four hundred recitals, including a series of one hundred programs and without a single repetition. This made him famous, and his reputation rapidly grew by reason of his numerous recitals all over the country, as he was called upon to dedicate new organs in nearly every state of the Union. He has probably opened more new organs than any other living organist.

Mr. Eddy's repertoire comprises practically everything written for the organ, as well as hundreds of manuscripts which have been dedicated to him. The program for his concert here will be announced next week.

MERCHANTS TO SUPPORT MARYVILLE BAKERIES

Merchants Agree To Support Local Bakeries and Urge Patrons To Insist On Home Products

After next Monday, Maryville merchants selling bread will sell only the "Baked-in-Maryville" products. This was announced this morning following an agreement among Maryville merchants not to ship in any out-of-town bread after this week.

This action, which is similar to that taken in some other progressive towns in the Middle-west, was taken following the unanimous opinion that Maryville citizens should patronize home industry. It was pointed out that Maryville has three excellently equipped bakeries, that these bakeries employ quite a number of persons, and the proprietors and employees are paying taxes and spending their money here, and consequently all are deserving of support and patronage of Maryville residents.

It was also pointed out that Maryville people when ordering bread, should insist upon it being, "Baked-in-Maryville." Observers of the trend of business of the country have declared that there is a noticeable sentiment in the most progressive small towns to realize the importance of supporting home industries and stores, if the small towns are to withstand the city competition.

49 Last Night Was Coldest June Night

Quite a Change From Monday's 97, the Hottest Day—Many Residents Fire Up this Morning

The temperature, which three days ago reached 97, fell to 49 this morning. This is the coldest weather on record for this time of year. A number of chimneys in Maryville had smoke pouring out of them this morning for the first time in many weeks. People were greeting one another with, "Nice, cool morning, instead of 'How hot is it going to be today?'"

Passenger trains coming into Chicago yesterday were steam heated for the first time in the remembrance of the railway companies in the month of June. Storms in the Northwest are said to be responsible for the unseasonably cold weather. Official forecasters say that the temperature will slowly climb back to normal but it will not be as hot as it was a few days ago.

As they entered the last half mile the Navy in a great burst of speed pulled to almost even terms with Washington. Columbia University was third, Syracuse, fourth and Pennsylvania, fifth. The official time was Washington 14:03 1-5 and Navy, 14:07 2-5.

King is a son of Mr. and Mrs. F. S. King.

BIBLE SCHOOL WILL PRESENT PROGRAM

AT 8 O'CLOCK TONIGHT IN HIGH SCHOOL AUDITORIUM

DISPLAY CRAFT WORK

Drills, Stories, Contests and Exhibition Will Feature Tonight's Program—Variety of Handwork

The closing program and exhibition of craft work done at the Daily Vacation Bible School will be given at 8 o'clock tonight in the High School auditorium.

There is a great variety of handwork done by the pupils of the school. A miniature reproduction of an Eskimo and Pilgrim village was made by the primary students. This serves as a correlation of missionary study, history and geography work. The children study the habits, customs and folklore of these peoples and in this way become acquainted with the different races of mankind. The primary students are those in the second, third and fourth grades in school work. Some of the girls in the primary department have made dolls out of the wire frames, cloth and cotton.

Lantern slides are shown on a screen. These tell the story of a boy in India before and after he became a Christian. His daily habits and educational ability is shown. In this way the children learn of the effects of missionary work on the different peoples of the world.

The students in the Daily Vacation Bible School learn to name the books of the Bible in their regular order, and also some of the principal characters of Biblical times. The names of the books of the Bible are printed on wooden blocks and then the children arrange these blocks in order. Tonight there will be a contest between the boys and girls to see which can arrange the books correctly in the shortest length of time.

Sand tables are used for work in the primary grades. Different models are made by the pupils.

About twenty-five boys from 8 to 10 years old are in the craft work class. Here they make animal toys out of beaver board. The different patterns are traced on the board and the boys cut them out and paint them. Practically all animals of the jungle are represented. Both action and stationary toys have been made.

About thirty hammocks have been made by the girls. They have been made with stout cord and can be used on the porch or lawn. About twenty-five pounds of cord and five dozen rings were used in the hammock making.

All of this work will be on display tonight. The students will also give various drills and will tell Bible stories.

NEW PROSPERITY ERA IS DAWNING

—Says President Harding

SPEAKS TO THOUSANDS AT BUTTE, MONTANA TODAY

CREDITS ADMINISTRATION

And "Common Sense Of American Business Man" For Rapid Recovery From Depression Period

Butte, Mont., June 29.—President Harding brought into the Northwest today an optimistic and timely message to American business.

To the great crowd of thousands that packed close to the rear platform of his special train here, Harding declared that the miracle wrought by America in mobilization for war had found a counterpart in the mobilization of American business during the menacing depression of two years ago, and going further, he asserted that American business now stands only in the doorway of a new era.

"No other nation of the world," he said, "looks out upon so clear a horizon today."

The President's address was devoted entirely to a survey of the world's business condition and a militant defense of the record of the administration and manner in which it led the country through the great economic depression following the World War.

The President attributed the recovery of business to the "plain, old-fashioned common sense of the American business man, aided by the administration at Washington which indulged in no fads and fancies of governments paternalism." He compared particularly conditions in the United States and in Europe.

"If we are accused of getting nowhere in particular we may reply that, at any rate, we are able to stay right here and we regard this as a good place to stay and day by day, in every way, we are getting better and better," he said.

Oklahoma Situation Looking Better Now

Oklahoma City, June 29.—All national guard units were ordered withdrawn from all parts of Oklahoma County except Henrietta today, but were ordered to be held in readiness if necessary to be sent to Picher, Oklahoma County, where a citizen was reported lynched Tuesday night.

Oklmulgee, Okla., June 29.—With only a small platoon of state troops, Brig. general Niles today is winding up his investigation into the alleged mob rule and depredations in Oklahoma County and martial law appears likely to end tomorrow.

No report of the result of the findings of the military investigators will be given until Sheriff John Merrill's office until the national guard is completely demobilized, it was said.

WILL START THIRD PARTY MOVE SOON

TO HOLD CONVENTION IN CHICAGO NEXT WEEK

1,000 DELEGATES THERE

Thirty-seven States Will Be Represented At Meeting—Made Up Of Laborers

Chicago, June 29.—The first tangible steps to the formation of a third party in 1924 were taken here today. Arrangements were completed by which the Farm-Labor party is to head a convention to be held here Tuesday, Wednesday and Thursday of next week.

Efforts will be made to unite the smaller groups of various labor organizations into one great labor party comprising the bulk of the workingmen and women of the United States.

The convention next week will probably form a permanent organization and steps will be taken in discussing presidential possibilities for 1924.

J. G. Brown, one of those most active in the labor-political move told the International News today that attempts would be made to enlist all laboring classes of the United States into a third party but still retain their autonomous character.

"Three of the greatest working organizations in the Republic have asked to be represented next week," Brown said. "The Brotherhood of Locomotive engineers, United Steel Workers and the United Clothing Workers, with a membership of nearly 1 million persons will be represented at the meeting next week."

There will probably be 1000 delegates representing 37 states in the Union. It is said that the party formed cannot and will not be dominated by the big business interests. Leaders in the new movement contend that both the old parties are controlled by Big Business and that the formation of a workingman's party would meet with wide-spread response.

C. J. Colden Speaks at Mo. Reunion in Calif.

Held at Long Beach and 540 Missouri Towns Were Represented—A Poem on Missouri.

The June issue of The Golden West, a magazine of Los Angeles and Long Beach, Cal., contained a story of the fourth annual May reunion of Missourians held at Long Beach. At this reunion for former Missouri residents there were 540 towns in Missouri represented. The magazine article stated that, "The principal address of the occasion was given by Hon. Charles J. Colden, president of the San Pedro Chamber of Commerce, who was for several years editor of the Nodaway Forum at Maryville, Mo., and represented his county two terms in the state legislature."

The following poem on Missouri, written by Miss Carrie E. Koch, of St. Louis, entitled, "It's Heaven in Old Missouri," was set to music and sung at the reunion:

Missouri's on the map, folks,
You know it by the breeze
That comes, all scented, 'cross the hills,
As fresh as from the seas.
The Ozarks cast their shadow
For kine, and bird, and bee,
And fish, in Gasconade, folks,
Wait 'round for you and me.

Chorus:

It's Heaven in old Missouri!
The skies are always blue;
The whippoorwill is calling,
Each flower is kissed with dew.
There's love, and peace, and plenty,
And sunshine all the way,
Out there in old Missouri,
Where it's heaven on earth today!

Missouri's corn and wheat, folks,
Enormous crops will yield;
In stock and poultry, grain and fruit,
We clearly hold the field.
Our "Maiden Blush" enchanting,
You scarce can wait to greet,
A fair one named "Elberta,"
None other half so sweet.

Missouri's fame for aye, folks,
A landscape soft and rare;
Deep jeweled valley, knoll and grove,
Springs bubbling everywhere.
The old White River trailer
Its charm may know full well,
But ne'er in all his lifetime
Its beauty can he tell.

Barnard Raises Funds to Drag Nearby Roads

(Barnard Bulletin)

The truck drivers of Barnard have started a fund for the purpose of dragging the roads from Barnard to the county line. Fifty dollars has been raised by the truck drivers and business men of Barnard and placed in a bank. A contract is ready for signing which will pay a man with a drag \$1.40 per mile for two rounds with a drag or \$4.60 for the four miles to be dragged.

It is understood that the Township Board has agreed to give an equal amount to that raised for the same purpose, and this will raise the sum to \$100. It is understood that similar projects will be attempted on other roads, the township board believing that systematic dragging will do more than any other thing to "keep" the roads in good shape after they are put in shape by the grader.

It is understood that Elvet McBride will take the proposition of dragging the bottom road at the figure named and plans to use two drags for he says one drag cannot cover the roads after a rain before it dries too hard.

The township board will meet Saturday and the matter will be concluded at that time and the balance of the money raised.

Marathon Aviators Have Narrow Escape

San Diego, Cal., June 29.—Captain Lowell Smith and Lieut. John Richter, narrowly escaped death here early today when, in a forced landing in their big De Havilland "air marathon" plane turned completely over at Rockwell Field. The plane was badly damaged but the two intrepid aviators, who had been in the air almost twenty-four hours, were carried out virtually uninjured.

A damaged crankshaft was the cause of the forced landing and the abandonment of the attempt to fly a hundred hours without a pause.

Dempsey-Gibbons Go Is Now a Certainty

Great Falls, Mont., June 29—"The money necessary to insure staging of the Dempsey-Gibbons fracas in Shelby on July Fourth has been pledged."

This statement was made today by George Stanton, baker of Great Falls. "At 3 o'clock this afternoon," said Stanton, "I expect to make a rather important announcement to the newspapers."

"Does this mean that you have secured the necessary money," he was asked.

"It means," he replied, "That all of the worry, which has been ours over getting the money is ended."

Wheat Harvest Is Almost Due Here

With the past few days of ripening weather rushing it toward the harvest, wheat in the Burlington Junction Junction vicinity is almost ready for the binders and farmers are making preparations to make the annual cutting. The crop this year is probably not up to the last season or two, but it is believed that a good yield will be realized. There has been some little damage from the fly, but none that will affect the crop very materially here.—Burlington Junction Post.

Skidmore Will Celebrate the Fourth

(Skidmore News)

The different committees in Skidmore, working under the direction of the James Harvey Hughes Post, have been working hard to prepare a program for Skidmore's largest Fourth of July celebration and have secured Dr. Fred Keller of the State Teachers College at Maryville, as speaker of the day.

Dr. Keller has been heard by a few of Skidmore's citizens and they will vouch for him being a good and interesting speaker.

An airplane from St. Joseph will arrive on the grounds early and will be prepared to carry passengers for a little spin through the air. He will have with him a man who will jump from the moving plane with a parachute.

A ball game between Burlington Junction and Wilcox will be played in the afternoon and it promises to be a good one. Both teams have been playing good ball all summer. Wilcox defeated Burlington Junction on the latter's ground last Sunday, the first time the Junction team has been defeated this season, so a good hard battle between the two teams is expected.

The parade committee reports that everything will be in readiness in due time. The churches, lodges and clubs have responded to the call to take part very liberally. There are about twelve or fourteen floats promised.

The ladies having charge of the pageant are doing some good work and will have about 90 taking part.

The Skidmore Band will play a concert both morning and evening and the fireworks display will be one of the best that has been in Skidmore.

Bluegrass Season Is Over for This Year

(Skidmore News)

The bluegrass season in this part of the state is over for this year. Most everyone who was heading bluegrass finished before the rain Monday afternoon, and those who did not, are through now as the hard rain and hail knocked most of the seed off. Loucks and Barrett finished their work last Friday and will have between four and five thousand bushels. Mr. Manpin of King City, finished heading bluegrass on the W. R. Linville's farms last week and had something near four thousand bushels of seed.

Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not there, and no face treatment can give it to you. But increase your red-blood-cells, and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes venus-like and immaculate! Try it. It will do it every time. S.S.S. builds the red-blood-cells you need for a beautiful complexion. Begin using S.S.S. at once, and give yourself what you have been working for, for years.

5 Million are Now in Jr. Red Cross

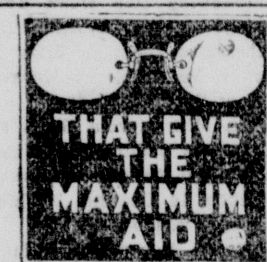

The United States now has the largest Army in the world. It numbers nearly 5,000,000 and during the past year has enlisted more than 300,000 recruits. Unlike others it is unarmed. Its purpose, instead of being destructive, is one of peace, of good-will and understanding, of kindness and sympathy. It is the Junior Red Cross.

Figures brought down to April 30, 1923, show that the Junior's roster now totals 4,729,920, as against 4,364,232 for the same date in 1922, an increase during the year of 265,588. If this increase is maintained during the coming year, the Junior registration will shoot well past the 5,000,000 mark.

The increase in enrollments during the year ended April 30 is divided among the Divisions as follows:

Division	1922	1923
Central	690,432	579,171
Insular and Foreign	817,023	575,950
New England	268,612	300,079

MISS NORMA ROSE WEDS

HERMAN LINDAUER
The Stanberry Owl-Headlight had the following this week about the marriage of Miss Norma Rose of Stanberry, a sister of Miss Virginia Rose of Maryville to Herman Lindauer of Deming, N. M.:

When Miss Norma Rose returned to Stanberry about June 8, little was thought of it, for she had been teaching school in Deming, N. Mex., and her school was out.

However, it was only last week that the young lady announced that she was married and the fortunate young man is a clothier in Deming.

Miss Ross and Herman Lindauer were married in Las Vegas, N. Mex., June 5. Mrs. Lindauer came to Stanberry very shortly after that and visited until last Friday with her parents, Judge and Mrs. G. W. Rose.

It was rather an unique ceremony for the young couple, as the words used were Spanish and an interpreter was necessary. It so happened that the Justice of the Peace spoke nothing but Spanish and so the ceremony was performed in that language.

Mrs. Lindauer is one of Stanberry's most talented and best liked young ladies. She taught in the local schools here for one year and she has also been a student in the Maryville Normal. She is the youngest daughter of Mr. and Mrs. Rose and is a very attractive young lady.

Mr. Lindauer is associated with his father in a Toggery store for men and women at Deming and it was while Miss Rose was teaching there that the romance began.

The best wishes of all her Stanberry friends will follow both of these young people into their new journey through life, with a hope that they may share the richest of blessings.
